| OPERATING INSTRUCTIONS.....       | 6 |

## GENERAL SAFETY INSTRUCTIONS

**WARNING:** To reduce the risk of injury, read all instructions properly. Failure to follow the instructions listed below can cause electric shock, fire, serious injuries, mutilation and/or damage to the equipment.

### A. SAFETY IN THE WORK AREA.

- \* Keep the work area clean and lit. Crowded or dark areas lead to accidents.
- \* Do not operate the equipment without first checking all gas connections with soapy water, to ensure that there are no leaks that could cause an explosion.
- \* Keep children, customers and non-company personnel away from the electrical and mechanical operation area of the equipment.
- \* It is recommended to have a minimum space of one meter or three feet around the machine for safety measure and to optimize work.

### B. ELECTRICAL SAFETY.

- \* Machinery connections must be adapted to the power outlets.
- \* Do not use adapters for the switches: since you run the risk of receiving an electric shock.
- \* Do not expose the switches and / or electrical connections to rain or humidity. If water enters these elements, there is a risk that they will break down or suffer an electric shock.
- \* Use cable in a single piece, if there are joints in the connections these can produce a short circuit.
- \* Do not expose cables or electrical connections to heat, oil, sharp edges, or moving parts, as damaged cables can cause electric shock or short circuit.

### C. PERSONAL SAFETY

- \* Do not operate the equipment if you are tired, under the influence of alcohol or drugs.
- \* Wear appropriate clothing, do not wear loose clothing, or necklaces, earrings, watches, if you have long hair wear a tie to keep it up.
- \* Do not climb on the structure of the machine for any reason, falls or injuries may occur.
- \* Avoid using headphones, cell phones or any other equipment that works as a distraction to the operator.
- \* Make correct use of personal protective equipment if any maintenance is to be carried out on the machine.
- \* If any change is made to the model or component of the equipment, be it electrical, mechanical or gas related, it must be de-energized, cut off the gas supply and stop the machine completely to avoid accidents.
- \* Keep limbs away from all moving parts.

## CAUTION

The following symbols indicate the safety measures that must be taken before and after starting up the equipment.

**HOT HAZARD** Some parts of the machine are hot while in operation.

**ELECTRICAL RISK** In which you can suffer electric shocks, if you do not comply with the electrical safety provisions.

**GEAR RISK** Keep your hands away from the chains and gears of the machine.

**DO NOT COVER THE BARREL'S AIR INTAKE.** Keep your hands away from the air inlet of the barrel.

## OPERATION'S MANUAL

1

Connect to 110v outlet.

2

Lower gas outlet to ½" with high pressure regulator

3

Fit the gas line with its gasket and hose duct-carburetor valve.

4

Turn on the machine.

Before starting production, it is recommended to spray the griddles with non-stick and clean with a cloth for best performance.

# COOKING OVEN

## OPERATION'S MANUAL

- 5** Check that the carburetor tap is at 0 and open the gas stopcock to the carburetor valve.

- 6** Light the burners with a lighter and start carburizing until the desired flame is obtained.

- 7** Let the griddles heat for 3 minutes and start production
